

**SUMMER
SPRINGBOARD**
Look Inward. Go Upward.

ECONOMICS INFOSHEET

**New student admissions for
summer 2026 are open**

1-Week Course

This course is one week long, and you can extend your experience to as many as four weeks by adding additional one-week courses.

Program Highlights

- Explore fundamental economic concepts, from micro and macroeconomics to market forces and pricing
- Apply economic theories to scenarios and analyze how these principles impact the labor markets, the environment and international trade
- Develop skills in interpreting statistical information and using quantitative tools to make informed decisions
- Understand the metrics behind economic growth, inflation and GDP, and examine policy debates around fiscal and monetary strategy
- Examine the benefits and complexities of trade activity and globalization

2026 Dates

Oxford

- Session 2: July 12 - July 18
- Session 4: July 26 - August 1

Academic Program Overview

This course offers a deep dive into the fundamental principles and theories that underpin economic systems worldwide. Students will examine topics such as scarcity, opportunity cost, supply and demand, incentives in decision-making and consumer behavior. They will also explore market dynamics, how prices are determined, global trade, exchange rates and economic development.

Overall, the course provides a comprehensive understanding of how economic systems function, equipping students with the skills and knowledge to analyze and contribute to economic decision-making at both individual and societal levels. Economics is a versatile field with applications in finance, public policy, business and academia.

Excursions

Students in the Economics course at Oxford have taken part in an immersive economics walking tour of London led by Dr. Ramin Nassehi, exploring the city's economic history and landmarks while gaining insights into how economic principles shape urban development. The tour also includes a visit to University College London, giving students exposure to the UK's university system and potential academic pathways.

In addition, students attend guest lectures and workshops featuring industry professionals who present case studies from both the public and private sectors. These sessions are followed by career panels where students learn about opportunities in economics and related fields.

Past Instructors include:

Dr. Oluwole Owoye

Dr. Oluwole Owoye brings a genuinely global perspective to economic theory - and your student is about to experience it firsthand. A Professor of Economics at Western Connecticut State University, Dr. Owoye holds a Ph.D. from Northern Illinois University and has published widely in leading international journals, presenting his research at major conferences around the world. He teaches Microeconomics, Macroeconomics, Monetary Economics, Labor Economics, and Economic Development. What sets Dr. Owoye apart is his remarkable real-world experience. A prestigious Fulbright Scholar, he has taught and conducted research across multiple continents - including a landmark collaborative Ph.D. program serving economists across West, East, and Southern Africa, and four years as a Visiting Professor in Nairobi, Kenya with the African Economic Research Consortium.

ECONOMICS INFOSHEET

**New student admissions for
Summer 2026 are open.**

2-Week Course

This is a two-week program where you'll focus on one course for the entire duration.

Program Highlights

- Learn about fundamental economic concepts such as micro and macroeconomics, historical trends, human behavior, supply and demand, market forces, and pricing.
- Apply economic theories to real-world scenarios and analyze how economic principles impact various sectors of society, such as labor markets, the environment, and international trade.
- Enhance skills in interpreting statistical information and using quantitative tools to make informed decisions
- Gain a better understanding of economic growth, inflation, and GDP, as well as debate on policy conflicts and fiscal policies.
- Examine the benefits of trade activity and globalization.

2026 Dates

Berkeley

- Session 1: June 14 - June 26
- Session 3: June 28 - July 10
- Session 5: July 12 - July 24

Academic Program Overview

This course offers a deep dive into the fundamental principles and theories that underpin economic systems worldwide. Students explore a wide range of topics, including scarcity, opportunity cost, supply and demand, and the role of incentives in decision-making, as well as consumer behavior. Students will also explore market dynamics, gain a better understanding of how prices are determined, and dip their toes in global trade, exchange rates, and discuss economic development. Overall this course provides students with a comprehensive understanding of how economic systems function, equipping them with valuable skills and knowledge to analyze and contribute to economic decision-making at both individual and societal levels. It is a versatile field that can be applied to various industries, including finance, public policy, business, and academia.

Excursions

Students have the opportunity to welcome distinguished speakers, take part in interactive seminars and enjoy a variety of walking tours and excursions around the area focused on economics.

In Berkeley, students have had the opportunity to visit and meet the leadership team at Founders, Inc., a San Francisco-based community, fund, and startup studio that supports founders building emerging technology companies. Students also had the opportunity to engage with a panel of two employee resource groups and toured the VISA headquarters.

Instructors

Berkeley - Allan Lacayo, MA, Economics

Allan is a distinguished educator with a passion for economics and mathematics. Holding a Master's degree in Economics and a Bachelor's degree in Applied Mathematics and Economics, both from UC Berkeley, Allan brings a wealth of academic expertise to his teaching endeavors. Currently serving as a visiting professor in Economics at Saint Mary's College and a professor of Economics and Business at Diablo Valley College, Allan's commitment to higher education is unwavering.
