

**SUMMER
SPRINGBOARD**
Look Inward. Go Upward.

Finance & Investing Infosheet

New student admissions for
Summer 2023 are open.

Program Highlights

- Study the underlying factors that influence publicly traded stock prices, and learn about options, futures and margin trading.
- Analyze P&L and balance sheets to gain useful insights into company valuations and private equity investments.
- Conduct equity research, and value a company using time-tested principles from professional investors.
- Gain valuable insights, and develop an investment pitch for an asset or stock that you believe is greatly undervalued.

2023 Dates

NEW YORK

- Session 1: June 18 - June 30
- Session 2: July 2 - July 14

Academic Program Overview

From investment banking to risk management to commercial real estate, there are many career options and opportunities to learn about business models and financial markets while also building new skills. Students visit an investment company to hear firsthand details of investment successes, failures and learnings. Also, an accomplished investment professional will share their personal career path and the wide range of career opportunities in the investment space—from being in the limelight to working behind the scenes. Students will be introduced to core investment concepts and learn to research data and reference their trajectories, estimate asset values and specifying performance benchmarks, employ portfolio theory to devise risk-adjusted asset allocation strategies, develop hedging strategies to offset risk, and manage portfolio performance.

Excursions

Students will attend an insider tour of Wall street, visit an in-house trading room with 15 Bloomberg terminals and hear from CEOs and Financial Advisors. Last summer, students met with the Chief Investment Officer of the YMCA Retirement Fund.

Instructors

New York - Session 1

David Sayles

Video

David Sayles - Mr. Sayles holds a MS in Management from MIT's Sloan School of Management and a BS in Chemistry from Yale University. With over 25 years of industry experience in corporate finance, risk management, trading systems and advising, his past work includes consulting for the World Bank Group, as well as serving as a Sr. Vice President for Lehman Bros., a VP for Alliance Capital Management and a Managing Director for Blackrock Financial Management and Armour Capital Management.

Mr. Sayles has also taught as an Adjunct Professor of Finance at NYU's Stern School of Business. He currently works as an advisor for Riskspan, an institutional mortgage investment consulting and analytics firm.

New York - Session 2

Michael Cheah

Mr. Cheah has more than 30 years of market experience. Until recently, he was the executive vice president of Capital Position, one of the financial industry's premier positioning, growth strategy, and global marketing firms. Before that, he worked as the senior vice president and senior portfolio manager responsible for all investment-grade fixed income portfolios at AIG SunAmerica Asset Management Corp. He also spent 17 years at the Monetary Authority of Singapore, where he was the head of the U.S. Bond Division, Markets, and Investment Department, and chief representative of the New York office. His responsibilities at the monetary authority included managing foreign-exchange reserves and overseeing external relationships with financial and government institutions in the United States.

Course Structure

There are nine 3-hour class sessions over the two-week course. During week one, students have class from 9am-12pm, Monday - Friday. During week two students have class from 9am-12pm Monday through Thursday. Wednesday afternoons are dedicated to additional academic time (excursions, speakers).
