

**SUMMER
SPRINGBOARD**
Look Inward. Go Upward.

Industrial Design Infosheet

New student admissions for
Summer 2023 are open.

Program Highlights

- Discover how to create design concepts, taking into account social, environmental, functional, financial, and aesthetic aspects
- Practice and develop digital skills such as graphic modelling, multimedia, and web design
- Create and focus on concepts for manufactured products, such as cars, home appliances, and toys by combining engineering, art, and business for everyday products
- Familiarize with several methods of industrial design prototyping: iterative, parallel, competitive, and rapid
- Learn to problem solve and find creative solutions whilst forming a product
- Gain experience in 3D sketching

2023 Dates

Georgia Tech

- Session 1: June 18 - June 30

Academic Program Overview

Have you ever wondered how manufactured everyday objects are created? Do you dream of designing products? Do you love engineering, art, and business? In this course, you will learn the steps and process of creating a product from ideation to production. Learn first-hand more about what it takes to become an industrial designer, which software and techniques are used, and how to develop innovative, useful, safe, and ecologically sound products!

Excursions

- MODA - Museum of Design Atlanta
- Georgia Tech School of Industrial Design
- Top Industrial Design Firms

Instructors

TBA

Courses are taught by accomplished and passionate faculty recruited from many area colleges, universities and professional forums. Each faculty member is selected for their subject area expertise and proven ability to both challenge and captivate students.
