FROM OUR STUDENTS & PARENTS

LUCY Z.

YALE: CREATIVE WRITING

"It gave me a chance to realize what Americans typically learn in school. I also met a lot of friends in the program, that's the biggest and most valuable thing."

AMY F.
MOTHER

"My son absolutely loved the experience which gave him a taste of college dormitory life, what it would take to be a medical doctor, real-life interactions with doctors and medical professionals, fun and engaging field trips around the SF Bay Area, and social connections to peers around the world. Truly a top-notch experience for him."

SHAOMIN C.

GHANA: CHILDREN OF AFRICA

"My reflections on what I experienced and learned during GLA played a key part in two of my college essays and I talked about it extensively in the interviews."
