

**SUMMER
SPRINGBOARD**
Look Inward. Go Upward.

Middle School Medicine Infosheet

**New student admissions for
Summer 2025 are open.**

Program Highlights

- Discover critical techniques in emergency medicine such as setting a splint and performing CPR.
- Work in teams as you research, diagnose, and develop a treatment plan for a "patient".
- Learn alongside medical professionals and gain behind-the-scenes knowledge of the emergency room.
- At Berkeley students will explore human anatomy on an Anatomage Table, the world's first virtual dissection table.
- At Georgetown students will visit the Trinity Washington University simulation center, a world class facility, where they'll gain hands on experience in intubation, and life-saving basic like support skills.

2025 Dates

Berkeley

- Session 1: July 06 - July 11
- Session 2: July 13 - July 18
- Session 3: July 20 - July 25
- Session 4: July 27 - August 01

Georgetown

- Session 1: July 13 - July 18
- Session 2: July 20 - July 25

UCSD

- Session 1: July 6 - July 11
- Session 2: July 13 - July 18

Academic Program Overview

This program provides middle school students interested in pursuing medicine with real hands-on experience where they can build a set of medical skills and knowledge at an early age.

Imagine being able to set a splint, stop a bleed, and perform CPR as a middle school student! Students will learn medical techniques through age-appropriate simulations and guided lessons. In addition, they'll work with small groups to research a patient's history and symptoms, create a diagnosis based on findings, and develop a treatment plan.

Excursions

Students will have the opportunity to engage with highly accomplished specialists in this field. Guest speakers will share their wealth of knowledge and encourage innovative thinking in this area of learning. Hands-on learning is experienced through visits to medical facilities/hospitals where students can view the process of patient care in action. Outside of course specific studies the students will explore all the Bay Area, DC area, and San Diego has to offer! With so much rich history, breathtaking sights, parks and famed landmarks at our fingertips there is something for everyone to discover!

Instructors

Berkeley

UCSF Emergency Medicine Physicians

Georgetown - Jennifer Wallace

Jennifer Wallace has a Master's in Nursing Education and a Bachelor's in Nursing and Psychology. Her 18 years in nursing have included bedside care of obstetrical patients and clinical coordination of the maternity service line. She has also served as a Nursing Professional Development and Education Specialist for the past three years at Sibley Memorial Hospital, including onboarding and educating new graduate nurses. Her career in nursing also allowed her to travel and work at multiple hospitals throughout the country. One of her favorite work assignments was at Cedars Sinai Medical Center in Los Angeles, CA, known as the 'hospital of the stars.'

UCSD - Session 1 TBA

UCSD - Gilbert Gimeno (Session 2)

With a Bachelor of Science in Nursing and over 18 years of extensive experience in clinical practice, occupational health, emergency response, and healthcare education, Gilbert brings a dynamic and multidisciplinary skill set to the healthcare field. His professional experience includes roles such as Coordinating Nurse at International SOS, overseeing remote medical cases and conducting global medical evacuations, corporate RN in a healthcare organization, and public safety and disaster risk reduction for the local governments. Gilbert is deeply committed to advancing healthcare standards and education through strategic planning, regulatory compliance, and multi-sector coordination.

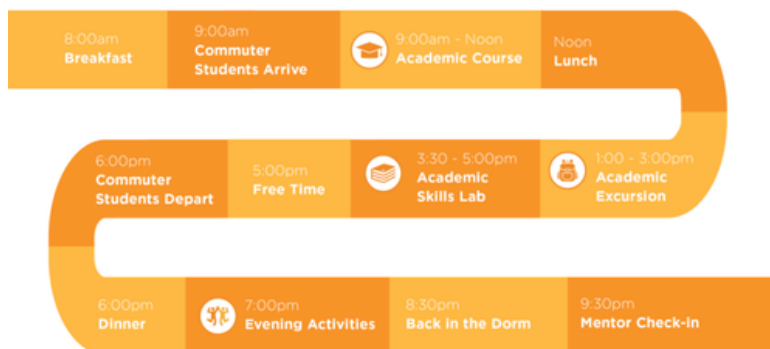

Course Structure

There are five 3-hour class sessions over the one-week course. During the week, students have class from 9am-12pm, Monday - Friday (program check-out is 2:30 p.m. on Friday). Wednesday afternoon will be dedicated to additional academic time with possible excursions and/or guest speakers.

The Middle School programs operate separately from Summer Springboard high school programs with separate staff, accommodations, classes, and a more structured environment. For students completing grades 6-8.
