## Academic Program Overview

This innovative college-level course in partnership with iXperience is perfectly designed to help high schoolers gain real world knowledge and experience before committing to an esports path in college. Esports is one of the fastest growing businesses in the world. While Esports has been mostly confined to the amateur arena for many years, in the past decade there has been explosive growth in professional competitions. Businesses that fund Esports competitors and the media organizations that cover these competitions have created a whole new field ripe with future career opportunities to explore.

## Program Information

This program is open to any high school student who will be entering freshman, sophomore, junior or senior year in Fall 2023. Space is limited. Each session is limited to 35 students per track. Online classes will be held via Zoom and facilitated in real-time by the instructor and a classroom coordinator.
