

**SUMMER
SPRINGBOARD**
Look Inward. Go Upward.

Speech & Language Sciences Infosheet

New student admissions for
Summer 2024 are open.

Program Highlights

- Gain a comprehensive understanding of typical speech and language development milestones from infancy through adulthood
- Learn about communication disorders, including speech sound disorders, language disorders, and speech-language therapy
- Introduced to various therapy techniques and strategies for addressing speech and language disorders and communication challenges
- Explore the neural basis of language and brain regions and networks involved in processing
- Introduced to the study of phonetics

2024 Dates

WASHINGTON

- Session 1: July 21 - August 02

Academic Program Overview

Speech pathology is a quickly growing field due to research and advancement, an aging population, increasing awareness, and the need for services in various environments. Students will gain an appreciation for the multidisciplinary nature of the field and learn about career paths within education, therapy options, and healthcare. This course will provide a strong foundational base for those interested in improving communication and overall life outcomes for individuals.

Excursions

- TBA

Instructors

Coryn Carson

Coryn is a Research Speech-Language Pathologist at the Institute of Learning and Brain Sciences at the University of Washington. The Institute is an interdisciplinary center that focuses on understanding early learning and brain development through a variety of methods including the use of neuroimaging scans such as EEG, MRI and MEG (Magnetoencephalography). Coryn's work focuses on contributing to studies investigating typical language development between birth and three years of age as well as early signs of developmental language disorder. She received her B.A. in Biology and Biomedical Studies from St. Olaf College in 2006 and her M.S. in Speech and Hearing Sciences from Portland State University in 2010. She has practiced in schools, private practices and early intervention settings as a Speech-Language Pathologist in Oregon and New York City. Her clinical work has focused on early intervention, early language acquisition and acquisition of early social skills. Outside of campus, Coryn can be found hiking, kayaking and cross-country skiing.
